ABOUT ME

I am young motivated woman, with hands-on experience in front-end web development and a growing specialization in backend engineering. Currently working with GRIT Web Services as a Front-End Specialist, with a strong passion for building scalable, efficient, and secure backend systems. Adept at problem-solving, teamwork, and innovation, with proven leadership experience in ICT initiatives and innovation challenges. Expected to complete studies in June 2026, and graduate December 2026.

EDUCATION

Bachelor of Science in Information & Communications Technology in Information Systems. (ICT in IS)

- 2022 – Present

Courses Completed:

- Management Information Systems
- Geographical Information Systems
- Information Systems Audit
- Information Systems Security
- Software Engineering I
- Internetworking Design &
- LAN/MAN Administration
- And other ICT-related courses

Grade 12 Certificate

Lunte Girls STEM Secondary School

2017 – 2021

Subjects Completed:

- Mathematics
 - Science
 - Biology
 - Geography
 - English
 - Civic Education
 - Design & Technology
-

WORK EXPERIENCE

FRONT-END SPECIALIST - GRIT WEB SERVICES

Duration: April – Present

As a Front-End Specialist at GRIT Web Services, I design and develop responsive, user-friendly web interfaces that enhance user experience and business functionality. I collaborate with development teams to implement modern web technologies, optimize website performance, and ensure seamless integration between front-end and backend systems. While specializing in front-end development, I am actively expanding my expertise toward backend engineering and full-stack development.

KEY RESPONSIBILITIES

- Develop responsive and interactive web applications using modern front-end technologies.
- Optimize website performance, accessibility, and user experience.
- Integrate front-end components with backend services and APIs.
- Continuously learn and apply backend development concepts and best practices.

DATA ANALYSIS INTERN CODVEDA TECHNOLOGIES — REMOTE/INTERNSHIP

Duration: December 2025

KEY RESPONSIBILITIES

- Selected for a data analysis internship based on analytical and technical capabilities.
- Worked on projects involving data interpretation, trend analysis, and data-driven insights.
- Gained practical exposure to data analytics tools, reporting, and strategic decision-making processes.

FINANCIAL CONSULTANT – PRUDENTIAL LIFE ASSURANCE COMPANY

Duration: September - October 2025

KEY RESPONSIBILITIES

- Assisted clients by assessing their financial needs and recommending suitable insurance solutions.
 - Provided basic financial planning guidance and product information.
 - Conducted client outreach and follow-ups to support conversions.
-

ACHIEVEMENTS & LEADERSHIP

- **3rd Place – Girls in ICT Innovation Challenge;**

Earned third place in the Girls in ICT Innovation Challenge for developing and presenting an innovative technology solution addressing real-world challenges. This achievement reflects strong problem-solving, creativity, teamwork, and presentation skills.

- **ICU Girls in ICT Representative;**

Served as the ICU Girls in ICT Representative, promoting women's participation in technology and organizing initiatives that encourage innovation, mentorship, and digital skills development among female students.

- **ICU ICT Chapter Secretary**

Held the position of Secretary for the ICU ICT Chapter, contributing to the planning and coordination of ICT-related events, workshops, and student engagement activities that fostered collaboration and professional growth.

- **ICU AI Team Member**

Actively participated in the ICU Artificial Intelligence Team, collaborating on AI-related projects, research, and learning initiatives aimed at advancing practical knowledge in artificial intelligence and emerging technologies.

- **ICU Data Science Team Member**

Contributed as a member of the ICU Data Science Team, working on data analysis, visualization, and research activities that enhanced analytical thinking and technical proficiency in data-driven technologies.

- **ZRDC Innovation Challenge Participant**

Participated in the ZRDC Innovation Challenge, demonstrating innovation, adaptability, and collaborative problem-solving in a competitive technology environment.

- **Google Developer Groups (GDG) Member**

Active member of Google Developer Groups, engaging in developer communities, workshops, and technology discussions to stay updated with industry trends and best practices.

- **Build with AI 2026 Attendee**

Attended the Build with AI 2026 program, gaining exposure to modern AI tools, technologies, and practical applications in software development and innovation.

SKILLS SECTION

TECHNICAL SKILLS

- Front-End Development: HTML, CSS, JavaScript, React, Responsive Design
 - Backend Development: APIs, Database Integration (learning and transitioning into specialization)
 - Data Science & AI: Data Analysis, Python, Machine Learning Fundamentals
 - Tools & Platforms: Git, GitHub, VS Code, Web Hosting, Database Management
 - Soft Skills: Leadership, Teamwork, Problem-Solving, Communication, Innovation, Project Coordination
-

CAREER OBJECTIVE

To leverage my front-end development experience and growing backend engineering expertise to contribute to innovative software solutions, while continuously developing my technical skills in full-stack development, cloud technologies, and scalable backend systems.
